Signage solutions

More than displays
Professional solutions.

Impactful heritage

Every innovation we make is driven by the desire to create real impact. From the first Philips Hotel TV over 40 years ago, to today's range of powerful, versatile Professional Displays. From our first videowall to our latest bezel-free LED wall. Your needs have always inspired us.

Innovative technology

Inspiration leads to innovation. Like our easy-to-use CMND system-management tool—for everything from installation to daily operation. Or our Android-powered SoC Displays, and the analytics features on our Pro displays. Listening to you helps us to create better products.

Meaningful solutions

Whether you buy one Philips Professional Display or 1,000, the screen is just the beginning. We collaborate with our software partners to create products that offer real answers. Flexible and reliable, our end-to-end solutions will help you meet the demands of your industry.
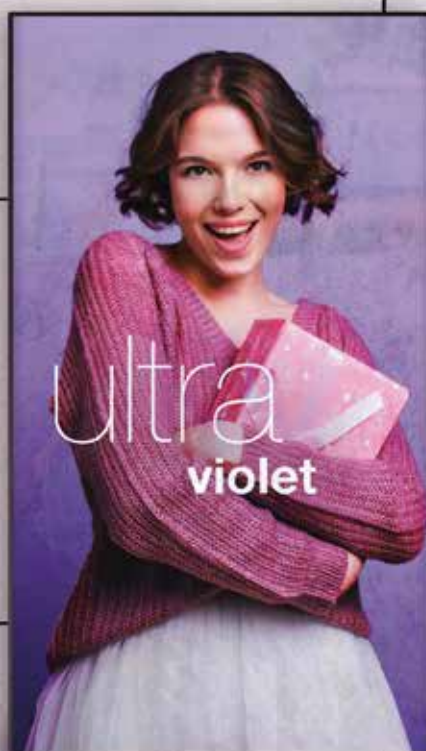

Hello meet our displays

Ultra clear. Ultra vibrant.

Our displays don't just look incredible—they're all the more powerful thanks to intuitive system solutions and our multilingual support teams. Helping you make an impact, your way.

⫸ CMND

One interface for all your displays.

Take control of your Philips Professional Display network with CMND. An end-to-end solution that lets you manage, update, maintain, and play via one easy-to-use interface. From installation to daily operation.

Drag-and-drop system management

Clone settings. Create and publish interactive welcome pages. Monitor, analyze—and much more. CMND delivers easy integration and lower total cost of ownership. Whether you have two displays or 1,000.

CMND & Control
Run your displays over a local connection.
Schedule content. Update software on displays.
Check display status, and more.
Effortless network operation

CMND & Create
Easily publish content. The drag-and-drop interface includes preloaded templates and integrated widgets.
Your content, your design

CMND & Deploy
Quickly install and launch any app.
Even when you're off-site and working remotely.
Apps made easy

CMND & Check-In
Streamline processes and make visitors feel welcome with personalized communication.
Personalize every experience

Android™

Powerful. Trusted. And ready for anything.

Android-powered Philips Professional Displays are fast, versatile, and secure.
Whether you're using a Signage Display or a Professional TV, our built-in Android OS delivers blazing performance and unmatched flexibility.

Captivate. Inform. Engage.

From interactive welcome pages to smarter retail signage. Android-powered Philips Professional Displays are optimized for native Android apps, and you can install web apps directly to the display too. Bringing a tailored experience to every audience.

Control. Analyze. Respond.

Multiple displays. Multiple locations. Android's powerful security and open-source design protocols give you immense flexibility when implementing networks.

Easy installation
Dynamic. Powerful. Cost-effective.

Intuitive interaction
Thrilling content. Greater engagement.

Seamless deployment
Schedule content. Rapidly download and launch apps.

Benefits

–   Take control with CMND:
    drag-and-drop system management.

–   Dynamically update crucial information—from ticket prices
    to event schedules.

–   Effortlessly install and launch native or bespoke apps on
    an Android-powered Philips display.

–   Easily schedule time-specific content, like adverts and
    event schedules.

–   Display 4K videowall content using a single player.
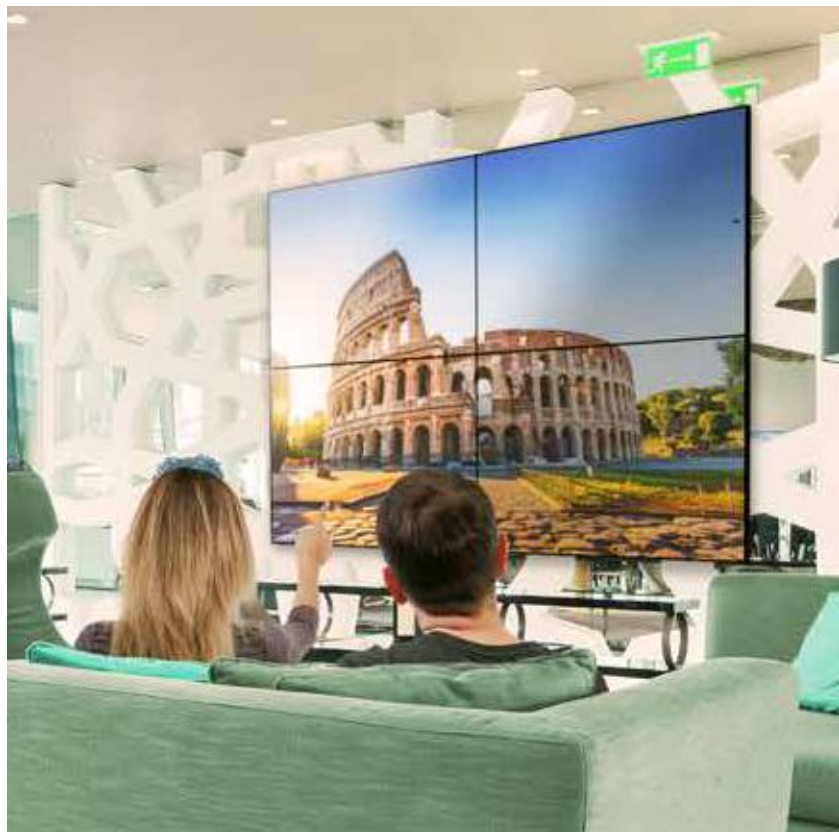

Hospitality

Make them feel welcome
Beautiful picture. Easy management.

Give them a memorable experience. From premium Professional displays in the room to touchscreens at check-in, Philips Professional Displays help you run things smoothly. Unique features like Ambilight and CMND offer more interactivity, more control, more style.
